

# **Protein A Sepharose**

Catalog Number	LDG0009RD
Package	0.25 mL / 2 mL / 5 mL / Customized package

For full product information, images and publications, please visit our website.

## **Overview**

## **Description**

Recombinant protein A were conjugated to NHS-sepharose beads. Leadgene Protein A sepharose has > 10 mg protein A conjugated per mL of settled sepharose.

#### **Product Note**

The optimal protein concentration of the cell lysate should be determined by the end user.

## **Specifications**

-					-			
Λ	n	n	и	Ca	١Ŧ	п	0	n
$\overline{}$	w	M	и	60	ιı		v	

Immunoprecipitation, IgG purification

#### **Specificity**

Protein A has a high affinity to human IgG, rabbit IgG, and others and is, therefore, suitable for purification and detecting immunoglobulins.

#### **Form**

Gel Immobilized 50% slurry in phosphate-buffered saline containing 0.05% sodium azide, pH 7.4.

#### Conjugation

Sepharose

#### Sample Type

Cell lysate

#### **Binding capacity**

1 mL settled sepharose has capacity to bind and elute 15-20 mg of human or rabbit lgG.

**Tainan Headquarters** 

**Innovation & Research Center** 

**CLD Center** 

## **Shipping**

The product is shipped with polar packs. Upon receipt, store it immediately at 2-8°C.

Stability & Storage

This product is stable after storage at:

 2-8°C for 12 months under sterile conditions from date of receipt.

Do not freeze.

**Disclaimer:** For Research Use or Further Manufacturing Only.
