

Anti-Influenza A Virus NP IgM Antibody

Catalog Number	LDG0213YA
Package	100 µg / Customized package

For full product information, images and publications, please visit [our website](#).

Overview

Description

Human anti-influenza A virus NP antibody only recognizes nucleocapsid protein (NP) of influenza A viruses but not influenza B viruses. Influenza A viruses are RNA viruses and their subtypes are labeled according to an H number (for the type of hemagglutinin) and an N number (for the type of neuraminidase).

Specifications

Clonality

Recombinant Human IgM

Immunogen

Influenza Virus NP

Reactivity

Influenza A virus

Application

ELISA, LFA

Conjugation

Unconjugated

Concentration

Lot-dependent, please refer to product label.

Buffer

Phosphate Buffered Saline containing 0.03% Proclin300, pH 7.4.

Specificity

Nucleocapsid protein

Form

Liquid

Shipping

The product is shipped with polar packs. Upon receipt, store it immediately at 2-8°C for long term storage.

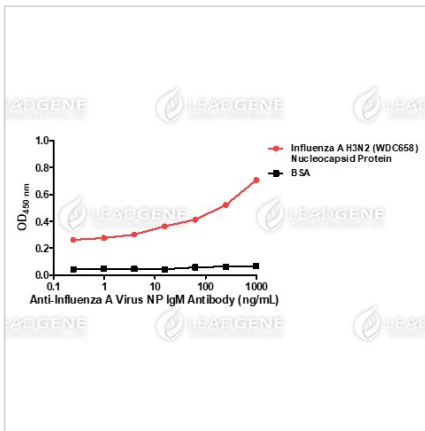

Stability & Storage

This product is stable after storage at:

- 2-8°C for 6 months under sterile conditions from date of receipt.

Briefly centrifuge vials before opening.
