

# Human TfR, His Tag, CHO

Catalog Number LDG

22000

Package

LDG096PHM

5 μg / 20 μg / 100 μg / Customized package

For full product information, images and publications, please visit our website.

## **Specifications**

Species of Origin	Expression system
Human	СНО
Affinity Tag	Buffer
His Tag (N-term)	Lyophilized from a 0.2 $\mu m$ filtered solution of PBS, pH 7.4.
Purity	Molecular weight
>95% as determined by SDS-PAGE analysis.	The protein has a calculated MW of 75.98 kDa. The protein migrates as 45-75 kDa under reducing condition (SDS-PAGE analysis).
Activity	Endotoxin level
Measured by its ability to bind recombinant human Transferrin protein, with the ED50 being < 4 $\mu$ g/mL when immobilized at 2 $\mu$ g/mL	<0.1 EU per 1 $\mu$ g of the protein by the LAL method.
Mycoplasma	Form
Not detected	Lyophilized

# Background

### Background

Transferrin receptor (TfR) is involved in iron uptake by mediating the endocytosis of transferrin-bound iron into cells, commonly overexpressed in cancers.

### Synonyms

Transferrin receptor protein 1, TR, TfR, TfR1, Trfr, T9, p90, CD71

P02786

Sequence Note

Cys89-Phe760

### Instruction

### Reconstitution

It is recommended to reconstitute the lyophilized protein in sterile H<sub>2</sub>O to a concentration not less than 200  $\mu$ g/mL and incubate the stock solution for at least 20 min to ensure sufficient re-dissolved.

### Stability & Storage

This product is stable after storage at:

- -20°C for 12 months in lyophilized state from date of receipt.
- -20°C or -80°C for 1 month under sterile conditions after reconstitution.

Avoid repeated freeze/thaw cycles.

### Image

### Shipping

The product is shipped with polar packs. Upon receipt, store it immediately at -20°C or lower for long term storage.
